

Sai Teja Vaidya

Applied AI & GenAI Engineer

Bangkok, Thailand | vaidyasaiteja143@gmail.com | +66-0825674212

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

Applied AI and Machine Learning Engineer with 3+ years of experience building enterprise AI, Generative AI, RAG, agentic, and machine learning systems. Hands-on experience with Python, LangChain, LangGraph, FastAPI, MCP, OpenAI, Google Gemini, Azure AI, and production API integrations. Experienced in connecting LLMs with enterprise data, tools, retrieval systems, governance controls, and real-world workflows.

Education

Master's Degree, Information and Communications Technology

Jan 2023 to Jan 2026

Asian Institute of Technology

GPA: 3.0/4.0

- Thesis: "Detection and Canopy Size Estimation of Oil Palm Trees Using YOLOv8, YOLOv11, and SAM on Multi-GSD UAV Imagery."

Bachelor of Technology, Computer Science

Apr 2019 to Nov 2022

JNTUH College of Engineering, Hyderabad

GPA: 8.8/10

- Built "College Buddy App", a peer-to-peer campus marketplace for sustainable textbook exchange; Student Volunteer and Coordinator, QUEST Technical Fest.

Experience

AI Engineer and Lead

Aug 2026 to Present

ServiceMind Thailand

Bangkok, Thailand, Part Time Contract

- Led enterprise AI/GenAI solutions integrating LLMs, AI agents, tool calling, real-time data retrieval, MCP services, and governance controls for airline and enterprise knowledge-work use cases.
- Built and optimized multi-model AI workflows using Azure AI, OpenAI, Gemini, LangChain, FastAPI, and FastMCP, implementing RAG/knowledge grounding, agent orchestration, guardrails, observability, audit logging, and human-in-the-loop controls.

Artificial Intelligence Intern

Feb 2026 to Jul 2026

Indorama Ventures

Bangkok, Thailand

- Integrated and optimized existing enterprise LLM/RAG pipelines using Python and LangChain, implementing document ingestion, chunking, embeddings, metadata filtering, and grounded retrieval across PDF, Excel, and CSV data.
- Implemented prompt controls, API/tool configuration, and adversarial testing against prompt injection, jailbreaks, and malicious document instructions to improve reliability and controlled AI deployment.

AI and Machine Learning Engineer – Computer Vision

Aug 2023 to Jan 2026

Agricultural Research Development Agency (ARDA)

Khlong Luang and Bangkok, Thailand

- Built end-to-end computer vision pipelines using PyTorch, OpenCV, YOLO, Mask R-CNN, and SAM, deploying REST APIs and real-time inference systems across UAV, web, and edge platforms.
- Designed a two-stage teacher-student pseudo-labeling architecture for automated dataset scaling, achieving 95–97% accuracy in spatial mapping and dynamic CCTV vehicle-tracking applications.

System and Network Administrator

May 2026 to Present

Trinity World Company Limited

Bangkok, Thailand, Part Time Contract

- Managed IT infrastructure and end-user systems for approximately 100 users across Windows/Linux environments, networks, Microsoft 365, endpoints, hardware, and day-to-day IT operations.
- Handled IT security incidents and technical escalations by identifying suspicious emails and system anomalies, performing structured troubleshooting, and escalating security events for investigation.

Additional Experience

Project Assistant

Aug 2025 to Dec 2025

Entrepreneurship Center

Bangkok, Thailand

- Planned and delivered internal and external events for an international graduate community, coordinating logistics, stakeholders, multimedia content, and hybrid technical operations.
- Maintained website content and communication materials aligned with program objectives and stakeholder requirements.

Program Coordinator

Aug 2024 to Jun 2025

Special Degree Program, Asian Institute of Technology

Pathum Thani, Thailand

- Coordinated academic programs, multicultural seminars, and technical events for an international student community, supporting scheduling, participant engagement, and execution.
- Designed and maintained information-flow processes supporting communication among students, faculty, and program stakeholders.

Selected Projects

Agent Blueprint – AI Agent Development Framework

Cursor SDK, TypeScript, MCP, Agent Architecture, LLMs

- Developing a reusable agent-development framework that scaffolds AI projects from PRDs/MVPs through structured agent configurations, skills, tools, knowledge, MCP integrations, and pre-built agent templates.
- Designing modular “.agent” project blueprints for reusable skills, tool definitions, knowledge modules, example agent kits, and session-aware execution patterns.

AI-Powered Travel Assistant Chatbot – Bhutan Airlines

JavaScript, FastAPI, RAG, Google Gemini, Web Content Grounding

- Developed a production-oriented RAG chatbot using Google Gemini and FastAPI, grounding responses in airline website content to improve factual reliability.
- Built REST APIs with conversation memory, contextual retrieval, prompt engineering, CORS, exception handling, and secure environment-based API-key management.

Sai’s Prompt Architect

Custom GPT, Prompt Engineering, LLM Workflow Design

- Built a structured AI prompt-engineering assistant that transforms user requirements into reusable, production-oriented prompts for software development, AI workflows, and agentic applications.

Automated Knowledge Graph Builder with Chat Interface

Beautiful Soup, spaCy, React, Flask, Pandas

- Built an automated knowledge graph pipeline across 50,000+ data entries and developed a React/Flask chat interface, reducing query response time by 40%.

Technical Skills

- **Generative AI:** LLMs, RAG, AI Agents, Multi-Agent Systems, LangChain, LangGraph, MCP, FastMCP, Prompt Engineering, Guardrails, LLMops, AI Observability
- **LLM Platforms:** OpenAI, Google Gemini, Azure AI, Amazon Bedrock, Amazon SageMaker, Hugging Face
- **AI Data & Retrieval:** Redis Vector Search, Amazon OpenSearch, Graph Knowledge Bases, Embeddings, Document Ingestion, Semantic Retrieval, Knowledge Grounding
- **Backend & APIs:** Python, FastAPI, REST APIs, FastMCP, API Integration, TypeScript, JavaScript, Docker
- **Cloud & Infrastructure:** AWS, Azure, GCP, Linux, Windows, Microsoft 365
- **ML & Computer Vision:** PyTorch, YOLOv8, YOLOv11, Mask R-CNN, SAM, OpenCV, Object Detection, Instance Segmentation, Tracking, ONNX

Certifications

- AWS AI Practitioner, AIF-C01 Micro Credentials Track – Amazon Web Services, Oct 2025
- LangChain Academy – Quickstart LangChain Essentials with Python, Jan 2026
- Kaggle and Google – 5-Day AI Agents Intensive, Jun 2026
- Generative AI Mastermind – Outskill, Nov 2025
- Generative AI Essentials and Introduction to Applications – IBM, Jul 2025
- Foundational Mathematics for AI – Johns Hopkins University, Jul 2025
- NVIDIA Prompt Engineering and Data Analysis – Whizlabs, Jul 2025
